PROJECTS / OPEN-SOURCE

Portfolio | Link

reactjs

PortFolio App in ReactJS:

"Hello, I'm Paritosh, a **React.js developer**. With a strong foundation in UI/UX, I bring 1 year of experience as individual freelancer Explore my portfolio showcasing projects like Movie app and currency converter Let's build something amazing together!"

movie app | Link

reactjs

Movie App in ReactJS with Tailwind CSS:

Developed a movie application using ReactJS with Tailwind CSS for efficient styling.

Utilized a movie **API** to fetch movie data, including titles, posters, genres, and ratings.

Implemented search, filtering, and sorting functionalities to enhance user experience.

Ensured a responsive design with Tailwind CSS's responsive classes, supporting various devices.

Customized the app's appearance with the flexibility of Tailwind CSS's utility-first approach.

Conducted thorough testing using Jest and React Testing Library to maintain app reliability.

Deployed the app to a hosting service for easy access and seamless sharing.

Mern chat-app | Link

Mern

Chat-App Mern Project - Mern with socket.io:

"Introducing MernChat: Where Communication Meets Simplicity.

Connect instantly with Socket.io technology, ensuring lightning-fast messaging with friends and loved ones. Share moments, thoughts, and laughter seamlessly, all with the assurance of end-to-end encryption for your privacy.
